

Lenovo ThinkBook 14s Yoga™ Intel Core i7-1255U 16GB RAM 512GB SSD Integrated Graphics 14" Laptop, Gray

If you are looking for a laptop that can easily handle everyday tasks while also being able to game and work on the go, this is the one for you.

- **Integrated Graphics:** It has a Full HD (1920 x 1080) IPS display with an LED backlight. It supports 10-point multi-touch so you can use it with your fingers and the included stylus pen. The screen also features an anti-glare coating to cut down on reflections while using it indoors or under bright lights.
- **Graphical Power:** The integrated graphics processor won't be able to run the latest games or HD video, but it will still handle basic tasks like web browsing and word processing without any issues.
- **Audio and Video:** Take advantage of its stereo speakers with Dolby Audio Premium technology if you're watching videos or listening to music on your laptop. The speakers are above the keyboard, so they won't get muffled when you have your hands on them while typing or gaming in tablet mode.
- **Ten hours of Battery Life:** It has a long-lasting battery life. It can last up to 10 hours on a single charge, so you can work on your laptop all day without having to plug it in.
