

Hi,

This is about the job ad on “content writing jobs” for the role of a Content writer. I want to apply for the same.

My current freelance work assignments involve writing SEO articles/ blogs in various niches like Education, SaaS, business, food, real estate, Cannabis, and others. Additionally, I have co-authored a photography book, ghost-written articles/blogs with SEO Best practices, and gained extensive experience working with CMS like WordPress.

PFA a copy of my resume with a sample portfolio.
